### Data Analysis (~90%):

- Identify, analyze, and interpret trends or patterns in complex data sets
- Work with management to prioritize information needs
- Knowledge of applying advanced analytic methods to diverse large data sets
- Create compelling visualizations that showcases analytics
- Utilize statistics to identify significance, noise, and correlations in data that improve business performance
- Research, collect, analyze, present, and communicate data to executive director
- Conduct gap analysis, provide impact assessments, and make recommendations

### Other tasks (~10%)

- General office admin and team assistance
- Professional development\*

\*Learning and networking opportunities include: USAID Global Health e-Learning courses, Triangle Global Health events, Care Group and CBIO learning materials.

### **Qualifications:**

- College junior, senior, graduate student or recent graduate
- Excellent writing, research, and communication skills
- Strong attention to detail and the capacity to balance multiple responsibilities
- A results-oriented person who is able to work independently
- Enthusiastic attitude and willing to do whatever is needed to help the team

### **Application Instructions:**

Please send completed application, resume, and cover letter to [info@curamericas.org](mailto:info@curamericas.org).

### Future Opportunities

Many interns have been promoted to Program Fellow or even hired as staff.
